contact person: Janet Le

Quick Details

Classification:

Sulphate

Type:

Ferrous Sulphate

CAS No.:

7782-63-0

Other Names:

green vitriol, Iron Sulfate Heptahydrate

MF:

FeSO₄.7H₂O

EINECS No.:

231-753-5

Place of Origin:

Shandong, China (Mainland)

Grade Standard:

Agriculture Grade, Electron Grade, Food Grade, Industrial Grade

Purity:

90%, 98%

Appearance:

Light green powder or granular

Application:

Fertilizer, water purifying

Brand Name:

DITAI

Packaging & Delivery

Packaging Details

1. Packed in plastic-lined plastic woven bags of 25 Kg net each, 25MT per 20FCL. Or According to the customer's requirement.

Delivery Time

Within 7~10 days after received your payment or original L/C

Specifications

Iron(II) sulfate (Br.E. iron(II) sulphate) or ferrous sulfate is the chemical compound with the formula FeSO_4 . It is used medically to treat iron deficiency, and also for industrial applications. Known since ancient times as copperas and as green vitriol, the blue-green heptahydrate is the most common form of this material. All iron sulfates dissolve in water to give the same aquo complex $[\text{Fe}(\text{H}_2\text{O})_6]^{2+}$, which has octahedral molecular geometry and is paramagnetic.

FeSO₄·7H₂O 98%min

Fe content 19.7%min

Cd 10ppm max

Pb 20ppm max

Arsenic 20ppm max

Company Information

Xiamen Ditai Chemicals Co., Ltd is a professional chemical company in China. Specializing deal and export various kinds of quality chemicals since 1997. The products Include industry chemical, Animal feed additive, Food additive, Agrochemical, Fertilizer, pharmaceuticals, water treatment and Minerals. Our management team has over 17 years of combined expertise meeting the needs of clients. We are proud our quality chemicals and service was approbated by the clients in the worldwide.
